

INFECTIOUS DISEASE PROGRAM

Priority Laboratories (PL) utilizes new real-time PCR solution enabling rapid urinary tract microbiota (UTM) and wound microbiota (WM) detection in under twenty-four hours. Accurate and timely molecular results allow physicians to treat bacterial infections quicker and with more confidence than ever before.

OUR PANEL:

- C. AURIS
- C. ALBICANS
- C. FREUNDI
- C. TRACHOMATIS
- E. AEROGENES
- E. COLI
- E. FAECALIS
- E. FAECIUM
- E. OXYTOCA
- K. PNEUMONIAE
- M. MORGANII
- N. GONORRHOEAE
- P. AERUGINOSA
- P. MIRABILIS
- S. AGALACTIAE
- S. AUREUS
- S. SAPROPHYTICUS

NEXT DAY RESULTS!

“Our mission is to ensure providers have access to their results as quick and with as much precision as modern science allows.”

-PL TEAM

WHY OUR PROGRAM IS DIFFERENT...

- 1** Quick 24-Hour reporting
- 2** Easy to read and interpret results
- 3** Service catered to your needs
