

Urinary Tract Infection

WOUND/UTI CARE

Wound/UTI Program: Priority Laboratories performs one of the most robust Wound/UTI Programs in the Country. Utilizing Real-Time PCR Priority Laboratories can detect bacterial pathogens with greater precision and accuracy than ever before in just a fraction of the time. In fact, Priority Laboratories infectious disease program has the industry leading 24 hour Turn Around Time. The result is available in just six hours after the laboratory receives the specimen, allowing the provider to start immediate antibiotic therapy to combat the infection in its earliest stages.

PATHOGENS WE TEST FOR:

1. CANDIDA AURIS
2. CANDIDA ALBICANS
3. CANDIDA FREUNDI
4. CANDIDA TRACHOMATIS
5. ENTEROBACTER AEROGENES
6. ESCHERICHIA COLI
7. ENTEROCOCCUS FAECALIS
8. ENTEROCOCCUS FAECIUM
9. KLEBSIELLA OXYTOCA
10. KLEBSIELLA PNEUMONIAE
11. MORGANELLA MORGANII
12. PSEUDOMONAS AERUGINOSA
13. PROTEUS MIRABILIS
14. STREPTOCOCCUS AGALACTIAE
15. STAPHYLOCOCCUS AUREUS
16. STAPHYLOCOCCUS SAPROPHYTICUS
17. METHICILLIN RESISTANCE MARKER

TESTING TIMELINES:

Once our lab receives your sample we can produce results in as little as **6 HOURS**. Being able to offer this quick turn around time gives our clients piece of mind and security knowing that they can diagnose their patients as quickly as possible.

REPORTING ACCURACY:

With an accuracy rating of 99%, our clients know they are receiving the most up to date and accurate results possible.

THINGS TO REMEMBER:

By having one of the most comprehensive panels on the market, we are able to offer immediate identification by PCR with a culture and sensitivity done simultaneously ensuring you have all of the necessary information when you need it.
